

## **Consent to use/publication of picture-, video-, and audio material including named attribution**

The joint activities of the Ev. Jugend von Westfalen and its subdivisions generally incorporate a large number of exciting, challenging, formative and ir retrievable situations and experiences. Thereby, the focus is put on the collective experiences and learning opportunities.

To provide all participants with a long-lasting memory of this eventful and profitable time and to additionally grant us the possibility to document and report on the work of our Youth Association, our staff members or people acting on behalf of our staff members will sometimes take pictures, videos, or audio recordings, which usually show the participants, during these activities. We want to offer these recordings to the participants as well as publish them in in-house publications and media.

We are very concerned to only publish pictures, videos, or audio recordings that preserve the dignity of those pictured. To ensure this, we only take recordings or have recordings taken if the participants were informed previously or it is clearly noticeable. Furthermore, we commit ourselves to carefully and diligently choose and select the pictures, videos and audio recordings as well as to protect them from unauthorized access.

The consent of the pictured people is required in order to publish these pictures, videos, and audio recordings including named attribution. In the cases of pictured minors the parents or legal guardians need to give their consent (Art. 12 of the canon law concerning the data protection of the Evangelischen Kirche in Germany, referred to in the following as: DSG-EKD). Minors 14 years or older as well as adults only need to provide their own consent. We kindly request this consent.

We intend to use these pictures, videos, and audio recordings, in the original version or an edited version that preserves the privacy of specific people, selectively to:

1. publish and include them in various printouts of our Youth Association and its subdivisions (e.g. press releases, church papers, photo books, advertisements for upcoming events etc.) and/or

7. distribute them in closed groups belonging to our association and its subdivision's social networks (e.g. WhatsApp) to the respective participants.

In printed versions, we intend to publish the first and last names of the people pictured in the pictures in specific cases where such a description serves a better understanding or a better characterization of the respective situations. In all other publications only the first names of pictured persons are published – if at all.

The data collected in this declaration of consent will not be distributed to third parties; it is protected from unauthorized access and will be stored by our association or its subdivisions as long as it is necessary in any case of doubt to produce the consent (§ 5 Abs. 1 Nr. 5; § 21 Abs. 3 Nr. 5 DSG-EKD).
